**DURA**  
BIKE LOCKER™

# DX

**BLUETOOTH LOCKER**  
The Future Is Keyless

## THE PROBLEM

While convention bike lockers provide the highest security level for long-term bicycle storage, riders consistently encounter a number of issues.

- Lost keys
- Locating Lockers
- Uncertain Locker Availability

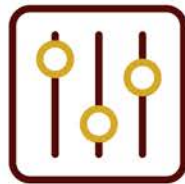

# THE SOLUTION

The DX Bluetooth Bike Locker allows bike locker owners the ability to rent, manage, generate revenue, and even contact your customers with ease; making the DX Bluetooth Bike Locker one of the best options available!

- Never worry about a lost key.
- Manage supply and demand.
- Communicate with your riders
- Let riders know that their locker time limit
- Rent your lockers short & long-term

A DIVISION OF DURA PRODUCTS GROUP  
Made In The Usa

## Design

Bicycle Parking LLC products are designed with the end users experience in mind, which is based on the right fit, form, and function. Whether you need a custom design or not, we can help!

## Bicycle Parking Leader

We have a diverse range of solutions, bike racks, bike lockers, bike shelters, to much more. So, if you need product to match, we can help!

## Made in the USA

We build all of our products right here in the USA. From our design, engineering, steel, to fabrication we pride ourselves on being a MADE in the USA business.

## Our Clients

We work with a diverse group of clients ranging from architects, developers, general contractors, schools, universities, corporate campuses, government, apartments, and many more.

## Quick Ship

The majority of Dura Bike Locker products ship quick. In most cases within 2-3 business days. So, if you are in need of the right product and on time delivery, then we should be the right fit!

## Customer Experience

With over years of experience in design, engineering, and manufacturing, Dura Bike Locker guarantees we will help find the right solution for your project!
